- **Portability and Convenience:** Unlike electric pumps, the manual nature of this pump makes it incredibly portable and ideal for use on the go. Its compact design allows for easy storage in a diaper bag or handbag, providing flexibility for expressing milk wherever you are. This is a significant benefit for busy mums needing to express milk at work or while travelling.

The fewer parts involved minimize cleaning time and effort, a significant advantage for busy mothers. This ease of use makes it perfect for new mothers still adjusting to the demands of breastfeeding and expressing milk.
